Collab

Technology for
advocacy, before
anything else.

Developh Innovation

Greetings!

Developh is an international nonprofit investing in youth-led innovation for social good. Through education and accelerator programs, we aim to shift the technology pipeline. Since our founding in 2016, we've impacted over 70,000 youth, building a diverse student founder community across the developing world. Our student-led nonprofit has been recognized by AnitaB.org (Grace Hopper Celebration), We Are Family Foundation, Microsoft, and more.

As part of our mission to be the most student-friendly accelerator, we're launching Collab. Collab is an innovation for social good initiative that works on impactful collaborations with mission-based groups to build tech-enabled solutions.

On August 24 (Saturday) 2019, from 12:30NN to 6:30PM, we're holding Collab Pitch Day in Amazon Philippines @ Bonifacio Global City: our kickoff event that convenes over eighty interdisciplinary student advocates, creators, developers, and community organizers. Advocacy groups will take spotlight as they share their challenges, cause, and initiatives in a one-day event of community dialogues, capacity-building, and ideation. All in all, Collab celebrates using technology for advocacy, before anything else.

[Learn more at developh.org/collab](http://developh.org/collab)

As one of the only youth-led organizations directly working towards technology for social good and technology for all, we'd love to invite your company to partner with us and join in our cause. We'd love for your participation in our event as we welcome a diverse array of young activists and creators, industry advocates and experts, and more alike to explore different social issues, and collaborate to solve them. Sponsors have the opportunity to work directly with us on Pitch Day, and later on - Demo Day, and if interested, can also reach out to us regarding contributing to the incubation of these ventures in the project development period as well.

Aside from nurturing youth innovation, our diverse audience of students have the potential to enter tech careers, be recruited, explore your technologies/APIs, - and most importantly, your advocacies from sustainability to education to anything under the sun.

Please contact us at hello@developh.org or through 0917 631 4588 if you're interested. We'd be happy to provide more details or negotiate custom sponsorship deals.

Chiara V. Amisola
Founder & CEO
chia@developh.org

Developh (develop or Develop PH)

Founded in 2016 as a not-for-profit organization.

WHAT IS DEVELOPH?

Developh is an international nonprofit investing in youth-led innovation for social good across the developing world. We run education and accelerator programs to build the student founder community, making technology more equitable. By uplifting and upskilling young people to access technology to build meaningful things today, we can shift the technology pipeline towards diversity, inclusivity, and intent.

WHAT'S COLLAB PITCH DAY?

Collab is a Developh initiative that builds on impactful collaborations with mission-based groups to build tech-enabled social good ventures. On Pitch Day, we're kicking off the program by giving youth advocacy groups the spotlight: sharing their cause and proposal in a one-day event of community dialogues, capacity-building, and ideation. Collab celebrates diverse innovation at the intersection of technology, activism, creation and design for impact.

Demo Day, oriented towards professionals, industry leaders, and community leaders will be held approximately 2.5 months after Pitch Day. This prospectus is specifically for Pitch Day.

Mission: Making empathetic, inclusive technology more equitable for students to access; helping more founders through education and acceleration.

Vision: We envision the youth to be a part of innovation, diversifying technology and making it inclusive of all.

Who runs Developh?

Chiara Amisola is a nineteen-year-old student at Yale University born and raised in Manila, Philippines. She founded Developh when she was 16, seeking to fill a gap in technology education. Chiara is an aspiring social entrepreneur and software engineer + designer, having worked with Twitter and Rappler. She was named a 2019 Global Teen Leader and was the 2018 AnitaB.org Student of Vision at the Grace Hopper Celebration.

Pitch Day: Event Objectives

- Launch social good ventures to an audience of student developers, creators, and change-makers; industry professionals, organizers, and advocates
- Refine proposals through diverse conversations and workshops on technology, design, advocacy, and entrepreneurship
- Team formation for social good initiatives before incubation period

Impact

- Since 2016, Developh has reached over 70,000 youth in offline and online programs; including our open-source education initiative, online hackathons and ideathons, and more. Developh's audience is 70% women/gender minorities, and 30% men.
- Developh Community spans over 100+ computing, design, entrepreneurship, social good, and -adjacent organizations; primarily in the Philippines and in 15+ countries
- Our Innovation portfolio includes projects like a voter education website that reached over 5 million Filipinos (unique engagements) throughout the 2019 midterms; other projects include mental wellness and policy, women's rights, etc.

How can you help?

- Direct financial contributes towards the organization--helping us get some flexibility in accounting for all needs; we'll distribute these funds through Pitch Day and for project development needs
- Send evangelists, engineers, social good leaders, or designers to mentor and inspire participants in the event -- especially ones that have worked on social impact projects
- Pledge support beyond the event throughout our incubation period: for 2 and a half months, teams will work on our platform in close contact with their project managers, mentors, and more; offer to host a technical workshop, webinar, or talk at a local Manila venue to the teams
- Provide support for meals, snacks, and drinks (we're a post-lunch, early-dinner kind of event -- but merienda exists for a reason)
- Provide venue support: offer your space or match a sponsorship to cover our venue costs and needs so we can open the event up to more advocates
- Organize an event such as a specific workshop or speaker session during the event proper, or offer to hold one anytime during the next 2.5 months over Collab project development period
 - Alternatively: help teams reach out to different communities, go on field trips, etc...
- If you have any other ideas, questions, or concerns, please don't hesitate to reach out to us at hello@developh.org

Talks and Knowledge

For startups and community groups: your insights and perspectives from the ground-up are infinitely valuable to us. If you're interested in conducting a workshop, talk, etc. on Pitch/Demo Day or throughout the product development period, let's talk.

In-Kind Donations

We are also open to in-kind donations like food; we're especially for materials that can be used in the project development process such as APIs, domain names, web/cloud hosting, hardware, and more!

Reach out to us at hello@developh.org to discuss.

Private Donors

Private Donors have also been critical to the successful funding of our innovation programs. To request information about the teams in our cohort or to fund specific initiatives/projects that align with your mission, please contact us for additional information so we can set a private meeting with us, or with us and the organization(s) that align with your interests.

Custom packages and negotiations are always welcome! Talk to us.

For Co-Presenter packages, reach out to us regarding additional agreements that we can work with you on.
